SolidSoft
Flexible Shower Tray

**A
UNIQUE
SENSATION
UNDER YOUR FEET**

SolidSoft

Flexible Shower Tray

Conforms to your feet

With a pleasant surface feel, it adapts to the pressure of your body

Easy maintenance

The maintenance is very straightforward. You won't need to use any aggressive products. Detachable filter for removing hair.

Soft and warm

SolidSoft is incredibly soft and warm to the touch. It retains heat, preventing cold sensations under your feet.

Resistant

Unbeatable resistance to impact and good resistance to abrasion and non-aggressive cleaning products.

Barrier-free shower tray

Ideal to be installed flush with the floor.

Silent

Excellent sound absorption. SolidSoft absorbs the sound of falling water, preventing the transmission of vibrations to other rooms.

Non-slip ergonomic surface

Excellent non-slip performance. Class-B certified in accordance with DIN 51097

Easy to install

Integrated slope. It won't break or get chipped. Easy, clean and fast installation.

Antibacterial

The material contains a component that prevents bacteria proliferation

UV radiation

SolidSoft is highly resistant to light and passage of time.

10 year guarantee

The manufacturer warranty guarantees antibacterial, UV radiation and water resistance.

Flexible and ultralight

Ultralight shower tray weighing only 8 kg/sqm. It can be transported, handled and installed by one single person.

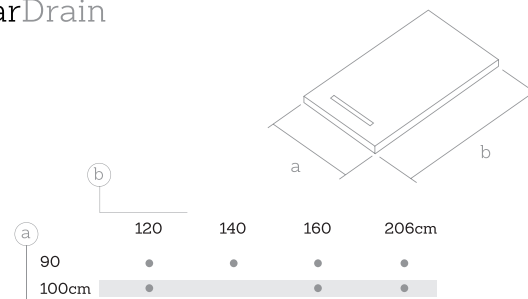

Customisable

It can be cut to the cm upon request or on site, using the sealing kit.
